

# Newgrounds Around the World Music Collab

**Overview: Around The World Music collab**, Musicians and Singers can team up and pick a country which they'll then make a traditional track inspired by that country.

These tracks can be instrumental or include vocals. And ideally it'll be one country per team or participant (if you prefer to rock solo).

As an example, the countries and genres you may choose could be; Bossa Nova from Brazil, Mariachi from Mexico, Blues from the USA, Milonga from Argentina, Brazil, and Uruguay, Flamenco from Spain, or Bushi from Japan, to name a few.

## Rules:

- All files should be **WAV 16bit audio**
- Include your Newgrounds username, song name, chosen country, and anyone who you worked with in the title of your file. It should look something like this; **Username – Song name (chosen country) feat. Collaborator**
- Ideally **one country** and **one genre** *per participant* as we want to include as much different genres and countries as possible.
- Song should be between **1 minute to 2 minutes** in length
- Have fun!
